

I do **not**
want to
repaint
this ceiling
next week.

Trust KILZ® primer to handle the tough jobs.

There is nothing that drains the satisfaction out of a job well done faster than an unexpected callback from the previous customer. Insufficient paint coverage, especially in the most difficult to reach areas, unnecessarily compromises the safety of your crew and harms the productivity of your operations. Minimize your exposure to costly callbacks by using the brand that pros trust... KILZ® primer.

KILZ® *The perfect start to a great finish®*
